SUMMARY

Frontend Developer with 2+ years of experience building scalable, high-performance web applications using **React, Next.js, Angular, TypeScript, RxJS**, and modern frontend architecture patterns. Experienced in API integration, **state management, performance optimization**, and building production-ready UI systems in Agile environments. Working knowledge of Generative AI development, including **Prompt Engineering, LangChain workflows**, LLM-powered applications, and AI-enhanced development workflows .

KEY SKILLS

Frontend	React, Next.js, Angular, TypeScript, JavaScript (ES6+), RxJS, NgRx, HTML5, CSS3, SCSS
Architecture	Component Architecture, State Management, Lazy Loading, Modular Design, Performance Optimization, REST API Integration
Tools & DevOps	Git, GitHub, GitLab, ClickUp, Postman, Jenkins CI/CD pipelines, Vercel/Netlify deployments
GenAI & AI Tools	Prompt Engineering, LangChain, LLM Workflows, ChatGPT, Gemini, GitHub Copilot, Cursor, Codex

EXPERIENCE

Executive Software Engineer | RAAPID • Ahmedabad, India (05/2024 – 09/2025)

Tech Stack: Angular, React, TypeScript, RxJS, NgRx, REST APIs, GitLab CI/CD

- Delivered **2 internal enterprise products** (Angular & React) independently, used by **50+ employees**, ensuring stable production performance.
- Developed and optimized UI modules, reducing application load time by **~20%** across devices.
- Integrated **30+ REST APIs** with end-to-end error handling and caching, enabling **99% uptime** and smooth data flow.
- Improved deployment efficiency by collaborating with DevOps to streamline CI/CD, reducing release time from **2 days to < 6 hours**.
- Leveraged AI-assisted development workflows using **GitHub Copilot** and **Cursor** to accelerate feature delivery and improve engineering productivity.

Associate Software Engineer | RAAPID • Ahmedabad, India (07/2023 – 04/2024)

Tech Stack: Angular, TypeScript, RXJS, HTML/CSS, REST APIs

- Implemented **10+ new Angular features**, improving overall user adoption by **15%**.
- Optimized API integration, reducing front-end to backend latency by **~18%**.
- Completed **20+ sprint deliverables** on schedule using Agile workflows.
- Contributed across the full SDLC, ensuring **zero P1 bugs** post-release.
- Enhanced reusable UI components, improving code maintainability and scalability.

Intern | RAAPID • Ahmedabad, India (01/2023 – 06/2023)

Tech Stack: Angular, TypeScript, Git

- Developed Angular components for production apps, ensuring maintainable code structure.
- Resolved **30+ UI bugs**, improving stability and reducing crash frequency by **10%**.
- Practiced clean coding, unit testing, and version control to support production releases.

Associate Software Engineer (Internship) | XwebinfoLab • Ahmedabad, India (08/2022 – 09/2022)

Tech Stack: WordPress, HTML, CSS, JS

- Developed responsive websites for local clients, improving online visibility and performance.
- Implemented SEO-friendly designs, resulting in **20% faster load times**.
- Collaborated directly with clients to gather requirements and deliver custom solutions.

CERTIFICATIONS

Web Development & Generative AI — Coding Ninjas (2026)

- Learned Prompt Engineering, LangChain basics, LLM workflows, and AI development tools including ChatGPT, Gemini, Copilot, Codex, and Cursor.

EDUCATION

B.Tech in Computer Science & Engineering | Sagar Group of Institute of Science & Technology, Bhopal

Graduated: 07/2023 | GPA: 8.04/10
